INFORMATION ABOUT CIVIC GOVERNMENT

Statutory Authorities :

There are nine Municipal authorities that have been charged with the responsibility of carrying out the provisions of the Mumbai Municipal Corporation Act 1888

- (1) Corporation
- (2) Standing Committee
- (3) Improvements Committee
- (4) Brihanmumbai Electric Supply and Transport Committee
- (5) Education Committee
- (6) Ward Committees
- (7) Mayor
- (8) Municipal Commissioner
- (9) General Manager of the B.E.S.T. Undertaking.

Apart from them, as per amendments made in Section 37 (I) of the Mumbai 'Municipal Corporation Act, 1888', provides for the office of the Deputy Mayor in the Mumbai Municipal Corporation. Section 37 - IA (1) of the 'Mumbai Municipal Corporation Act, 1888', respectively, for the Leader of the Opposition and the Leader of the House, who also enjoy Statutory status. Apart from the Statutory Committees, the Corporation has powers to appoint Special Committees including Women and Child Welfare Committee, under Section 38A (1) of the 'Mumbai Municipal Corporation Act, 1888'. These committees consist of 36 members each. In addition, as required under Section 38 of the Said Act, Consultative Committees have been appointed by the Corporation.

By virtue of the Indian Constitution and for the purpose of making Municipal Administration more public oriented and decentralize powers, seventeen Ward Committees have been established. Each Ward Committee consists of the councillors representing the electoral wards within the territorial area of the wards committee, the ward office in-charge of the said wards committee and other members not exceeding three, nominated from amongst the members of recognized non-government organization and community based organisation engaged in social welfare activities working within the area of the said Wards Committee. The main functions of Ward Committees are to dispose of quickly the matters of local citizens relating to the water supply, cleanliness and other basic civic amenities, etc; grant administrative approval and financial sanction to the plans for municipal works to be carried out within the territorial area of the Wards Committee costing upto Rs. 5 Lakhs.

Tree Authority which is mainly concerned with protection and preservation of trees in Urban area, consists of Municipal Commissioner (Ex-Officio Chairman), 13 elected Councillors, Chairman, of Markets and Gardens Committee (Ex-Officio Member) and 10 nominated members. It functions under the Chairmanship of the Municipal Commissioner. General Manager of B.E.S.T. undertaking is the Administrative head of the B.E.S.T. undertaking.

ASSESSMENT AND COLLECTION

Capital Value Based Property Tax System

The Brihanmumbai Municipal Corporation has adopted capital value based property tax system with effect from 01-04-2010, all buildings & lands within Mumbai Municipal limits are assessed as per Capital Value System. As per section 154 (1C) of MMC Act, 1888 Capital Value based u/s 154 (1A) can be revised after every five years. Accordingly, Capital Value was supposed to be revised in the year 2020-2021.

However, considering the impact of Covid-19 pandemic on Social, Economical conditions, to reduce the burden on tax payers, Property Tax bills for the period 2020-2021 have been issued same as of 2020-2021 without any increase. Sub section 154 (1D) has been inserted in MMC Act, 1888 to defer the revision by one year. Property Tax bills for the year 2022-23 have been issued same as for the year 2021-22 i.e. without any increase in property tax, subject to amendment in section 154 of MMC Act, 1888.

Recovery of Property Tax :

Property tax is payable half yearly in advance and property tax bill is served on the person liable for payment of the same. Penalty is levied upon the unpaid bills & actions such as attachment of property. Auction sale are initiated for recovery of property tax as laid down under the provisions of M.M.C. Act. 1888. Capital value of Property and Payable Property Tax along with details of Property is available on BMC website.

BMC has undertaken Integrated Property Validation Solution [IPVS], 360 Degree project whereby the property related information has been collected from vendor company at initial survey, has been validated with data available in Property Tax Department. On validation of the data, the accepted deviations which were not in the Property tax Net, have been undertaken for further detailed survey by the vendor company and on receipt of data from vendor company, assessment have been undertaken with related corrections in Property Tax data of the department.

The capital value system has enabled citizens to calculate their property tax and to make online payment of property tax. Similarly, the following facilities are available on the BMC. website.

1. Current status of Outstanding Tax : Available at Property Tax (New) Tab.
2. Transfer of property in online mode : Available at Property Tax (New) Tab.

Repairs Cess :

The Repair Cess is Leviable on buildings in the city wards only. For this purpose the buildings have been classified into three i.e.

Category A : The Buildings erected before 01.09.1940.

Category B : The Buildings erected between the period from 01.09.1940 to 31.12.1950 (Both inclusive).

Category C : The Buildings erected between the period from 01.01.1951 to 31.12.1969 (Both inclusive).

Note : No Repair Cess is levied on the buildings totally erected on or after 01.01.1970.

The rate of chart of repair cess is as under.

SEWERAGE OPERATIONS DEPARTMENT

Sewerage Operations Department operates and maintains the sewerage Network, Sewage Pumping Station, Sewage Treatment Plants (STP) and Waste Water Treatment Facilities (WWTF) brought in place by Sewerage Projects and Mumbai Sewage Disposal Projects departments in seven Sewerage Zones of Mumbai City. The sewage is conveyed through existing underground Sewer Network, collected at various Satellite Pumping Stations, treated at eight different Sewage Treatment Plants and disposed into nearby Sea/Creeks.

The department is also responsible for repairs and rehabilitation of existing sewer lines. The department has installed the sewage recycling plants of smaller capacity in the premises of sewage pumping stations for the reuse of sewage water for non-potable purposes. The department also provides transport services to various sections of Water Supply and Sewerage Disposal department.

The Department falls under the Budget 'G' of the B.M. C.

Sewerage Operation Department is mainly divided into following sections according to the nature of work.

- i) Main sewer and pipe sewer sections : Conveyance of sewage.
- ii) Pumping sections : Collection, Treatment and Disposal of sewage.

- iii) Transport sections : Transport section has 314 vehicals using which this section provides transport service to various sections of W.S.S.D. department.
- iv) Civil section: Repairs to sewer lines & civil structures of S. O. Dept.
- v) Planning & Construction section : Rehabilitation of Sewer line, rising mains of pumping stations.

There are seven zones in Mumbai viz. Colaba , Worli, Bandra, Versova, Malad, Ghatkopar, & Bhandup. Each of seven zones has a terminal sewage pumping station and sewage treatment plant. The sewage collected through the sewerage network spread all over Seven Zones is conveyed to the terminal Pumping Station and treatment facilities through a network of sewers and satellite pumping stations for treatment and disposal.

The sewage treatment plant at Colaba provides tertiary treatment, Worli & Bandra provides preliminary treatment and then sewage discharged respectively 1.5 km., 3.5km. and 3.7 km. in Arabian Sea through Marine Outfalls. Similarly, the sewage at Malad is discharged into Malad Creek after preliminary treatment while from Charkop is discharged into Gorai Creek after tertiary treatment. The Sewage treatment plants at Versova, Bhandup and Ghatkopar, provides secondary treatment through aerated lagoons and treated sewage is discharged into Malad & Thane creek.

Mumbai Sewage Disposal Project is constructing new Waste Water Treatment Facilities for complying revised discharge norms issued Maharashtra Pollution Control Board which are in line with guidelines of Hon. National Green Tribunal. As a stop-gap arrangement till sewerage operation department has proposed to treat sewage by bioremediation method.

The main sewer & pipe sewer section undertakes yearly programme for systematic de-silting and cleaning of the sewer network of Mumbai City for smooth flow of Sewage thereby minimizing the complaints of sewage overflow on the roads.

To keep the sewer lines in smooth working condition, the sewer lines are periodically inspected, desilted and cleaned at pre-decided intervals under a systematic cleaning programme to prevent direct contact with sewage, the cleaning work is mechanized for which various sewer cleaning is mechanized fro which various sewer cleaning machines/ equipments as detailed below are used with all safety norms.

1) Jetting Machine	:	01 Nos.
2) Suction Machine 6.5 m ³ capacity	:	02 Nos.
3) Suction Machine 1.5 m ³ capacity	:	12 Nos.
4) Power Bucket Machine	:	18 Pairs
5) Choke Machine (Power Rodding)	:	26 Nos.
6) High Capacity Suction and Jetting Machine with Filtration & Recycling System	:	24 Nos.
7) Grab type Manhole Desilting Machines	:	08 Nos.
8) Quick Response Vehicle	:	03 Nos.
9) Compact Pipe Sewer Cleanning Machine	:	24 Nos.

The department has three centralized control rooms one each at City, Eastern and Western Suburb equipped with Power Rodding Machines and other equipments. These control rooms work round the clock, 24X7 to attend and redress all complaints received pertaining to the sewerage system.

Any complaint about the non functioning of the sewerage system is registered either with the concerned ward or with any of the three main sewer control rooms as stated above. The complaints are also recorded through the M. C. G. M. website or on the central complaint number 1916. Most of the complaints received are resolved within 24 hours.

The establishment schedule post of Sewage Operation Department has 08 Deputy Chief Engineers, 22 Executive Engineers, 60 Assistant Engineers, 122 Sub Engineers, 112 Junior Engineers / Oversears, 3,818 Skilled / Unskilled labour employees. Out of which, present, the above mentioned works are carried out with the help of, 06 Deputy Chief Engineers, 17 Executive Engineers, 48 Assistant Engineers, 85 Sub Engineers, 66 Junior Engineers / Oversears, 2,076 Skilled / Unskilled labour employees.

Conservancy Services:

Advance Locality Management (A. L. M.) :- The ALM concept envisages great involvement and interaction of BMC with neighbourhood groups in the Wards. These groups co-ordinate with the respective ward office for a better management of civic related issues e.g. garbage, street adoption etc.

Under A. L. M. some small steps are to be taken as follows :-

- 1) REDUCE the waste generated and what is generated should be reused and recycled. This step is more applicable to dry (packaging) wastes.
- 2) STORE the wet and dry wastes in containers of choice e.g. bins, bags, drums etc. prior to disposal.
- 3) DISPOSE OFF the separately stored wet and dry wastes through separate channels of convenience. Dry waste is disposed through scrap dealers rag pickers and local sweepers is done. About 260 tonnes of biodegradable waste is composted per day. Monthly meeting are conducted at ward level.

“Swachh Mumbai Prabodhan Abhiyan” (Vasti Swacchata Yojana):

1) BMC’s Standing Committee has stop the Dattak Vasti Yojana and sanctioned new sheme i.e. “Swachh Mumbai Prabodhan Abhiyan”(Vasti Swachhata Yojana) on dt.16.01.2013 as per Subject No.27 (dt.09.01.2013) Resolution No.965 and it has been started on 1st April 2013, as per this the cleanliness of slum area of Mumbai city is started.

2) In view of cleanliness, in this scheme the eligible organization is guiding the local people of slum areas to keep their area clean. So with the help of local people the organization will keep the slum area of Mumbai City clean.

3) In this scheme the motto is that the organization which has been appointed from slum area should make progress of their slum area.

4) “ Swachh Mumbai Prabodhan Abhiyan” (Vasti Swachhata Yojana) this scheme is run with the help of the organization formed by the help of people participation, fund collection from area people and with the help of B. M. C.’s monthly allowance.

5) In this scheme B. M. C. Will not appoint their labour staff .

Approximately 6500 - 6800 MT. Solid waste of Mumbai City and Suburbs is received at Deonar and Kanjur Landfill site.

Deonar Dumping Ground –

Deonar Dumping ground is the oldest one, receiving approximately 12% of total waste. Waste is deposited off at the Deonar Dumping site by conventional method of dumping and leveling. At present Deonar Dumping Ground is receives about 600-800 M.T. garbage per day.

For prevention of environment of Deonar Dumping Ground and surround premises following measures are taken-

- (1) B. M. C. has provided facilities of spraying of herbal based deodorant regularly on the surface of solid waste to control insecticides, flies etc. and provide water tankers for control of fire smoke. In Public health point of view, herbal based deodorant is sprayed on vehicles which transport garbage at check post.
- (2) As well as pipes are installed in dome of garbage for flaring of gases which controls fire incidents at dumping ground.

- (3) In order to control the pollution in and around the Deonar Landfill, the Air Quality Monitoring and Research Laboratory under the jurisdiction of the Mumbai Municipal Corporation conducts a monthly survey of the surrounding air. The color, smell, etc. of the water is surveyed. In addition, noise level surveys are conducted to control noise pollution.
- (4) After the successful completion of the project by B. M. C. the pollution in the locality will decrease and people of the nearby localities will benefit from the health point of view.
- 5) Tender for 600 M.T. Capacity Waste to Energy Project is awarded and preliminary works of the same are in progress.

Kanjur MSW Processing Facility :-

As per order of Hon. High Court, Mumbai and Hon. Supreme Court the Government of Maharashtra handed over a plot admeasuring 141.77 hectares area at Kanjur to B.M.C. on 24.10.2005 for developing MSW disposal site. Out of said 141.77 hectares area, mangroves area admeasuring 23.36 hectares was retained by the Government of Maharashtra vide notification dtd. 02.04.2012. Hence total land available for kanjur site is 118.41 Ha.

Kanjur MSW Processing facility has received Environment Clearance from State Environment Impact Assessment Authority Maharashtra (SEIAA) on 05.12.2014 for 65.96 hectares non CRZ area.

Further, Kanjur MSW Processing facility has received Environment Clearance from State Environment Impact Assessment Authority Maharashtra (SEIAA) on 29.10.2018 for Scientific processing of MSW in 52.45 hectares CRZ-III area.

At present, processing of about 4500 TPD of MSW with bioreactor technology and about 1000 TPD of MSW with windrow composting technology is being carried out at Kanjur MSW Processing facility.

The measures that are being taken at Kanjur MSW processing facility to control the odour nuisance are as below :-

1. Operator of Kanjur MSW Processing facility is spraying Enzyme based deodorant round the clock on the MSW received for processing. Due to spraying of Enzyme based deodorant odour generation from MSW reduces drastically.
2. Operator of Kanjur MSW Processing facility has installed misting arrangement around Bio reactor cell to reduce foul smell.
3. The gas is also being used for generation of power which is at this juncture utilized for part of captive consumption. The flaring / utilization of landfill gas helps to reduce odour.
4. Inactive area of Bio reactor Cell is daily covered by the Operator of Kanjur MSW Processing facility with the help of soil to reduce foul smell.
5. The operator has set up control room to redress the complaints regarding foul smell in the area.

The Ch. E. (SWM) New Project Department report regarding scientific processing on MSW generated in Mumbai is as below :-

1. Development of Waste to Energy (WTE) Project at Deonar-

The tendering process for Waste to Energy project is completed and the work is awarded to the contractor. About 600 TPD MSW will be processed scientifically and 4 MW energy will be generated from this project. LOA is issued to the contractor on 24.12.2020. Feasibility & capacity for the development of waste to energy (WIE) project at Deonar-Second Phase is under discussion and Technical Expert Committee is constituted for the same.

2. Project of Dumpsite Reclamation at Mulund Dumping Ground (MDG) in Mumbai by adopting suitable technology for existing garbage dump-

Work of Dumpsite Reclamation at Mulund Dumping Ground (MDG) has been awarded to the contractor, commencement of the project is started from 01.10.2019. Contractor has scientifically processed and disposed off about 4,35,000 MT of legacy waste till Dt. 31.12.2021 and further work is under progress M/s. MITCON Consultancy & Engineering Services Ltd. has been appointed as Project Management Consultant (PMC) for this project.

3. Collection, Transportation, Processing & Disposal of Construction & Demolition (C&D) Waste in Mumbai

The B. M. C. is planning to process 1,200 TPD C & D Waste scientifically. The tender for Collection, Transportation, Processing & Disposal of C & D Waste is invited on 30.06.2021. On due date 10.12.2021, there bids are received Scrutiny of the received bids has been completed and further bidding process is under progress.

4. Scientific processing and disposal of Waste at village Karavale , near Taloja -

Government of Maharashtra has allotted about 52.10 Ha land to BMC at village Karavale (Kh.), Tal - Ambarnath, Dist Thane for development of scientific waste processing facilities. Out of which about 39.90 Ha Land is private land. Out of 39.90 Ha. government land, the physical possession of about 12 Ha. Land has been given to B.M.C. on 16.02.2019. This land will be used for Solid Waste Management Projects of B.M.C. Acquisition of remaining government land and about 12 Ha. private land is being carried out through Collector, Thane. After receiving physical possession of the said land, BMC will undertake works for development of scientific waste processing facilities.

5. Scientific processing of waste at Mulund (E) Near Airoli Brigde -

Government of Maharashtra has allotted about 32.77 Ha. land to B.M.C. at Mulund (E) near Airoli Bridge for development of scientific waste processing facilities. However, Physical possession of the land is not yet given. After receiving the actual physical possession of the said land, B.M.C. will undertake works of development of scientific waste processing facilities.

INSECTICIDE BRANCH

Vector Control

Mumbai is the pioneer city where Vector Control for prevention of Vector Borne diseases is dealt with professionally since 1923. Main function of Insecticide Branch of Public Health Department is control of Malaria vector Mosquitoes, Dengue and Chikungunya vector mosquitoes, Filaria vector (nuisance) mosquitoes, Fly control & Rodent control.

Anopheles stephensi is the only vector which transmits Malaria in Mumbai. To control the malaria vector (*An. stephensi*) under the anti-malaria campaign, source reduction i.e. removal of disused containers / odd articles, filling up of depressions etc. Engineering methods i.e. mosquito proofing of wells and tanks etc., Introduction of larvivorous fishes under biological control method & as a last recourse use of insecticides and fumigation is done. Legislative (Legal) action is used to implement the above mentioned strategies as a part of integrated vector management. Effective control measures are carried out by early action to control the *An. stephensi* breeding places. 'Mumbai Mantra' - a five point program is implemented in Mumbai since year 2011. This program is highly successful and number of malaria cases in Mumbai has reduced considerably.

Dengue and Chikungunya vector, *Aedes aegypti* mosquito breeds in domestic and peri-domestic containers i.e. Drums, Tyres, Scrap Material, Tins, Cans, Flower Pots, Dishes kept below the Flower Pots, Artificial Ornamental Fountains, Feng-shui Plants, Coconut Shells etc. Therefore, above mentioned temporary domestic and peri-domestic containers are either removed destroyed or they are emptied and refilled at least twice a week. General public is made aware of source reduction to control dengue by above mentioned measures. Sensitisation of office bearers of Housing Societies, Commercial Buildings, Schools and Industrial Estates is done through awareness programmes. Massive awareness programs are also taken up in slums when anti-larva measures along with fogging is done.

Nursance (*Culex*) mosquitoes are controlled by insecticided spraying in covered storm water drains & nallahs and by means of fogging, if spraying of larvicides is not possible. Channelization of nallahs and removal of water hyacinth are some of the measures adopted to control culex mosquitoes.

Rodent control and fly control programs are also carried out in all 24 wards of B. M. C.

Pest Control treatment like antilarval measures and fumigation, if demanded in private premises, is given by the B. M. C. against payment of charges by the owner.

4) Advertisements :

Municipal Corporation of Greater Mumbai has formulated revised Policy Guidelines on 10th January, 2008 to enhance the aesthetic beauty of Mumbai City by modifying the earlier Policy Guideline 2000 on the grant of permission for display of sky signs and advertisement under section

328 and 328A of Mumbai Act 1888. The aim is to improve the quality of advertisement at par with international standard. Specific clauses in respect of size of hoarding; structure and distance between two hoardings are included with a view to increase aesthetic beauty of Greater Mumbai Taking into account the public safety, restrictions are imposed on erecting one upon one hoardings as well as clubbing of hoardings and ordered removal of all projections of the hoarding on footpath/Road or outside the building line.

Considering the various issues and opinion of the public as relating to mushrooming number of advertisement and likely damage to buildings due to hoardings on its terrace / rooftops. etc. it is now decided that no new hoardings will be permitted on rooftop and terraces and minimum distance between two hoardings on poles shall now be 100 mtrs. instead of 20 mtrs. New hoarding shall not be permitted on religious places, Structures / buildings in Heritage Precincts and heritage importance as per D.C.R. Rule 48(3). In crematorium / burial grounds the hoardings permission if parallel to road. Considering the interest of public safety, no new permission for hoarding shall be granted or renewed without proper scrutiny of Structural Stability Certificate of building from Municipal Licensed Structural Engineer.

There is no permission for display of Political Banners, Birthday Greeting, Anniversary Greetings, etc. on Mumbai Roads, and footpath hereafter as per Hon'ble High Court's orders.

The, unauthorized Banners, Posters, Cut Out etc. displayed on Roads and Footpath in the city of Mumbai are being immediately removed by the Encroachment Removal section of Licences Department with the help of Advertisement inspectors working at ward level.

As the tenure of Policy Guideline prepared in the year 2008 was for 10 year, a revised modified Policy Guideline is prepared in the year 2018-19 and the said modified Policy Guideline of Advertisement is sent to State Government for its approval.

Disaster Management Website:

The website 'dm.mcgm.gov.in' shows following information: High Tide - Low Tide time table, Weather forecast obtained from India Meteorological Department, Live weather parameters updated every 15 minutes, Traffic updates, Status of Local Trains, Status of Air Traffic etc.

Disaster Management App :

B.M.C. launched 'DISASTER MANAGEMENT' App available on Android & IOS Live rainfall data along with other weather parameters like Temperature, Pressure Humidity, Wind speed, Traffic diversions and Weather forecast from IMD etc. are available which is refreshed in every 15 mins. Also nearby Hospitals, Police Stations, Fire Stations and Ward Offices are geo tagged and this information is available for citizens. SOS button is provided for tracking distress victim. 20 video clips are available on mobile app for awareness of citizens.

Central Complaint Registration System(CCRS):

On-line complaint management system (CPWM Module) has started from 2000 to register civic complaints. Central Complaint Registration System is working 24 x 7. Civic Complaints pertains to B.M.C. are registered on phone no. 1916 in the central control room and sent to the concerned department through on line system. Citizen can lodged their complaints on line on BMC portal i.e. <http://portal.mcgm.gov.in> Un-attempted complaints are automatically escalated to higher authorities such as Assistant Commissioner - Dy. Municipal Commissioner to Additional Municipal Commissioner and finally to Municipal Commissioner in a time bound manner.

During this pandemic period of affection of Covid-19 from March 2020, the work of management of ambulances, hearses & hospital bed allotment has been assigned to Disaster Management Department. For this “Covid-19 Helpline” for citizens of Mumbai has been started on existing Disaster Management short digit Helpline Number : 1916.

Emergency Support Function (ESF):

The Disaster Management Department has introduced the Emergency Support Function (ESF). The ESFs provide the co-ordination mechanisms among the various agencies. They provide the organization and process to plan, manage and co-ordinate specific response and preparedness activities common to any hazardous event that can result in an emergency, from the most frequent one to the most extreme one. Each ESF is headed by a lead agency and is supported by identified support agencies. These ESFs form an integral part of the Emergency Operation Centers, each of which will co-ordinate its activities from the Municipal Corporation of Greater Mumbai Emergency Operations Centre.

GIS Based Command and Control system:

For quick and quality response and for developing decision support tool Disaster Management Department (DMD) had developed a computer based application of technology involving spatial and attribute information. The relevant baseline data is collected from various stakeholders. GIS has emerged as effective tool in Disaster Management some geo spatial data and socio economic information is amalgamated for the better decision making and in handling a disaster or to plan for tackling disasters in scientific manner.

Prime objective of developing GIS is to help DMD for :

1. Pre- Disaster Planning & Preparedness
2. Prediction and Early Warning
3. Decision Support System
4. Damage Assessment & Relief Management

GIS combines layer of information on various themes to enable DMD to take the most appropriate decisions under given circumstance.

1. DMD generate maps both at micro and macro level indicating vulnerability to different extends under different threats perception .
2. Location likely to remain unaffected or remains comparatively safe could be identified.
3. Alternated routes to relief camps and important location in the event of disruptions of normal surface communication could be worked out.
4. Smooth rescue and evacuations operation can be properly planned.

City Institute of Disaster Management & Research Centre (CIDM), Parel :

In case of any mishap happens at MHO and EOC at 2nd floor is not accessible or cannot be operated, a backup control room has been setup at CIDM, Parel. This backup control is equipped with Hotlines, Wireless communication, HAM Radio, Video Wall, ESF similar to EOC at MHO. CIDM provides comprehensive training on disaster management and first response to employee of B. M. C./ Government / Private companies, School and College students, Medical practitioners, Police etc to aware them about scientific ways of disaster management.

3D Auditorium and an Art gallery is developed to show realistic information about of various disasters. The major objective of these facilities is to make visitors aware of disaster and its

preparedness. Art gallery has interactive dioramas, display, photographs and information boards for awareness generation of various disasters.

Post Graduate Diploma in Disaster, Fire & Industrial Safety Management (PGDDFISM) :

Considering the importance of Disaster Management and ever increasing impacts of Disasters, CIDM has commenced a one year PGDDFISM course in coordination with GICED and Mumbai University. This course offers scientific learning of concepts of natural and manmade disaster and techniques of every stage in DM. The Primary aim of this course is to educate personal from Government agencies, industries regarding appropriate response to the impending disaster and reduce the impact on mortality and economy.

City Disaster Response Force (CDRF) :

On the basis of National Disaster Response Force (NDRF) at National level and State Disaster Response Force (SDRF) at State level it was proposed to establish City Disaster Response Force (CDRF) is establish at City level for Mumbai. The objective of formulating CDRF for Mumbai is to develop self sustainability for responding disasters like major fire, collapse structure, Chemical-Biological-Radiological-Nuclear etc. The personnel appointed for CDRF are from existing Security Force, Mumbai Fire Brigade, Doctors & Paramedics of MCGM and will be trained by National Disaster Response Force (NDRF).

SEWERAGE PROJECT DEPARTMENT

The sewerage system of Greater Mumbai is planned in seven zone viz, Colaba, Worli, Bandra, Versova, Malad, Bhandup & Ghatkopar. Planning & laying of new sewer lines and upsizing of existing sewer lines as per requirement by inviting e-tenders, issuing work orders is done by Dy. Engineer (Sewerage Project) Planning and Design section. The execution of works of sewer lines as per terms & conditions of the tenders is carried out under the supervision of Dy. Chief Engineer (Sewerage Project) Construction. The laying of sewer lines work is carried out by open cut method & Trenchless method. The Dy. Chief Engineer (Sewerage Project) Planning and Design section & Dy. Chief Engineer (Sewerage Project) Construction section work under Chief Engineer (Sewerage project). Sewerage Project department is working under the control of Dy. Municipal Commissioner (Engineering) & Additional Municipal Commissioner (Projects).

ENVIRONMENT DEPARTMENT

Under National Clean Air Programme, Air Draft Action Plan has been prepared to improve the Air Quality of Mumbai City & brought to the level of Ambient Air Quality Standard, as per the guidelines of Central Pollution Control Board & Maharashtra Pollution Control Board & format provided by them, same has been approved by the C.P.C.B. on 24th October 2019. Being a co-ordinating agency, B.M.C. has informed all internal stake holders i.e. departments form B.M.C. & external stake holders to start the implementation of action points approved Air Action Plan. The B.M.C. departments such as Ch. E. (Roads & Traffic), Ch. E. (SWM), Ch. E. (D.P.), Ch. E. (M. & E.) Executive Health Officer, Superintendent of Garden, Assistant Commissioners of all wards are the main internal stake holders responsible for implementing Air action plan. The R.T.O., Traffic Police, M. M. R. D. A., B. E. S. T., Railway, Metro Railway, M. S. E. B., Reliance, M. S. R. D. C., MHADA, Transport Ministry, Petroleum Ministry, Mining Ministry are the external stake holders has important role in the action plan.

In the action plan the stress is given on widening of road, to reduce the Traffic Jam by removing the bottle neck, synchronization of Traffic, introducing Intelligent Traffic Management System, to control the air pollution in Bandra-Kurla Complex & Lower Parel area by reducing the vehicle emissions, to control the Air Pollution & subsequently Noise Pollution & concentrating on related abatement measures. This plan is time bound, The Grant in Aid of Rs. 10 crore is sanctioned to Municipal Corporation under National Clean Air Programme.

The Ministry of environment, Government of India under fifteen finance commission have granted a grant of Rs. 330 Cr. (approximately) to Brihanmumbai Municipal Corporation for "Air Quality improvement programme and Rs. 324 Cr. (approximately) for conservation, supply and management of water and solid waste management.

Noise Pollution Control :

In the matter of public interest litigation No. 173/2010 filed by Mahesh Bedekar V/s State of Maharashtra, as per the direction given by Hon'ble High Court Bombay for the compliance of same, the NEERI has carried out of Noise Monitoring and Noise Mapping of 55 locations in Mumbai City, Noise Mapping Report prepared for Mumbai City, the NEERI has given recommendations & suggestions to control Noise Pollution in Mumbai City and identified the role of various Government / Semi Government authorities to control Noise Pollution in Mumbai City.

As per directions of Member of Secretary of M.P.C.B. the environment department of B.M.C. has written letters to various concern outside department / authorities and various concern internal department of B.M.C. to submit monthly report to Environment department about action taken for implement the recommendations & suggestion made by NEERI. Thus environment department is coordinating the activity in the subject matter. As per the directions in the NEERI report the B.M.C. has formulated the City Noise Pollution Control Committee, which will formulate the guidelines to monitor & control the Noise Pollution in the Mumbai City.

Under 15th Finance commission of Government of India, Brihanmumbai Municipal Corporation (B.M.C.) has received the grant for their air quality improvement and improvement in quality of drinking water, rejuvenation of water bodies, improving sewerage and sanitation system.

To utilise this 15th Finance commission grants, B.M.C. has undertaken various activities like improving garden in B.M.C. jurisdiction, putting up waste to energy plants, installation odour control systems improving facilities of sanitation in various localities, installing sewer treatment plants etc.

Environment department of B.M.C. is coordinating this activities with different department of B.M.C. along with Maharashtra Pollution Control Board (M.P.C.B.), Government of Maharashtra and Government of India.

Air Quality Monitoring and Research Laboratory

Scientific Approach - As per 74th amendment of the constitution of India in 1992 (12th schedule) the Maharashtra State Government issued an ordinance amend Municipal Corporation Act - 1888 making "Environment protection, promotion of ecology and urban forestry" as an obligatory duty vide section 61 (ab) in the year 1994. And under the section 63-B of Mumbai Municipal Corporation (M.M.C.) Act. 1888. Environmental Status Report is prepared and submitted every year before 31st July to the Corporation.

Sub - Dept. - Air Quality Monitoring & Research Laboratory sub department :

There are 4 working units in Air Quality Monitoring & Research Laboratory like Air Monitoring, Gaseous, Instrumentation & Mobile Monitoring Van. In the territory of B.M.C. Ambient Air Quality Monitoring network comprises of four manually operated monitoring sites viz. Worli, Andheri & Bhandup.

1) Air Monitoring Unit : To collect the samples of various pollutants from 03 fixed monitoring sites with the help of High Volume Samplers by this unit like Sulphur Dioxide(SO₂), Nitrogen Oxide(NO₂), Ammonia (NH₃)& Suspended Particulate Matteres (S.P.M.), temperature and relative humidity daily. The Air Quality monitoring is carried out as per the C.P.C.B. guidelines. Whenever the complaints are received from citizens, special monitoring is carried out and the reports are submitted to higher authority and concerns

2) **Gaseous Unit** : In this section samples of gaseous pollutants collected are analysed with the help of UV Spectrophotometer and result of pollutants are compared with standards set by Central Pollution Control Board (C.P.C.B.) and Monthly / Annual report is forwarded to Dy. Ch. Eng. (Civil) Env. Ch. Eng. (S.W.M.) and HOD EPRC department (K.E.M.). The annual report is included in Environment Status Report (E.S.R.) yearly.

3) **Instrumentation Unit** : Analysis of Polynuclear Aromatic Hydrocabans (Phenanthrene, Anthracene, Fluoranthene, Pyrene, Benzo (α) anthracene, Chrysene & Benzo (α) Pyrene) extracted from suspended particulate matter are analysed with the help of Gas Chromatograph. The Benzo (α) Pyrene is one of the carcinogenic pollutant.

The analysis of heavy metals [Arsenic (AS), Cadmium (Cd), Chromium (Cr), Copper (Cu), Iron (Fe), Nickel (Ni) & Lead (Pb)] extracted from suspended particulate matter are analysed with the help of Atomic absorption Spectrophotometer. Pollution Levels of Lead, Nickel & Arsenic are compared with standards prescribed by Central Pollution Control Board.

4) **Mobile Van Monitoring Unit** : With the help of Mobile Van, monitoring is carried out at traffic junctions namely Wadala and Andheri. Similarly at the dumping grounds namely Deonar & Kanjur. The pollutants analysed are SO_2 , NO_2 , CO, O_3 , Pm_{10} , $PM_{2.5}$, Hydrocabans, VOC etc. Whenever the complains are received from citizens, special monitoring is carried out with the help of Mobile Van and the reports are submitted. Result of pollutants are compared with standards set by Central Pollution Control Board (C.P.C.B.) and Monthly Annual report is forwarded to Dy. Ch. Eng. (Civil) Env. Ch. Eng. (S.W.M.) and HOD EPRC department (K.E.M.). The annual report is included in Environment Status Report (E.S.R.) yearly.

SAFAR - MUMBAI :

The important project 'SAFAR-MUMBAI' is a joint venture of Brihanmumbai Municipal Corporation (B.M.C.), Indian Meteorology Department (I.M.D.) Mumbai & Indian Institute of Tropical Meteorology (I.I.T.M.) Pune. Under SAFAR project various monitoring sites are installed at different places in the area of B.M.C. Viz. Air Quality Monitoring Stations (A.Q.M.S.) 10 Nos. Automatic Weather Station (A.W.S.) 16 nos. & Digital Display Board (D.D.B.) 13 nos. Data received from 'SAFAR - MUMBAI' is further analysed by A.Q.M. & R Laboratory and Monthly (SO_2 , NO_2 , CO, O_3 , Pm_{10} , $PM_{2.5}$). Yearly report is submitted to concerned departments. The annual report is included in Environment Status Report (E.S.R.) yearly. Under 'SAFAR -MUMBAI' program Status of Air Quality, Weather Forecast & Air Quality Index is now available to citizens on mobile app namely 'SAFAR -Air'.

Environment Status Report :

Under the section 63-B of Mumbai Municipal Corporation (M.M.C.) Act 1888 Environmental Status Report is prepared and submitted every year before 31st July to the Corporation. Environmental Status Report for 2021-2022 is already published by the corporation.

In the year 2022-2023 the work order has been given to the concerned contractor for the installation of 5 Continuous Ambient Air Quality Monitoring Stations in the jurisdiction of B.M.C. The air quality data is made available to college students and researchers of concerned environment field by Air Quality Monitoring Research Laboratory.

Civil Section :

Repairs work of SWM Project are being carried out by Dy.Ch.E.(C) Environment department as per requirement In Mumbai City there are 46 Colonies for Conservancy Staff of Solid Waste Management department of B.M.C. where approximately 5592 workers are residing. The co-ordination of repairs related works of the building from these colonies and that of the building of Transport Garages and wherever necessary repairs of dumping grounds are being carried out by this section.

MUMBAI COASTAL ROAD PROJECT (SOUTH)

The Mumbai Coastal Road Project (South) is one of the most prestigious projects to be undertaken by B.M.C. The Southern Coastal Road Project is of 10.58 km length from Shamaldas Gandhi Marg (Princess Street) Flyover to Worli End of "Rajiv Gandhi (Bandra Worli) Sea Link". The work of the project is in progress. This project will resolve the traffic congestion in South Mumbai in addition to providing several environmental friendly features to the city. The proposed Coastal Road is having a 4+4 lane configuration comprising roads based on reclamation, Bridges, elevated roads and tunnels.

The Mumbai Coastal Road Project will reduce the travel time, decongest existing roads, reduce the air and noise pollution levels, improve public transport by a dedicated bus lane and also generate much needed additional green open spaces. The Estimated Total Project Cost including Consultants fees of this work is about Rs. 12,950 Crs.

This Project is divided into three packages. Package IV - From Shamaldas Gandhi Marg (Princess Street) Flyover to Priyadarshini Park and Package I - From Priyadarshini Park to Baroda Palace are awarded to M/s. Larsen And Toubro Ltd. Package II - From Baroda Palace to Bandra Worli Sea Link is awarded to M/s. H.C.C.- H.D.C. (joint Venture). In the Coastal Road Project total three, Project Management Consultants one for each package have been appointed as Employer's Personnel and one General Consultant has been appointed as Employer's representative. This Project work is commenced in October 2018 and expected to be completed by December 2023. The required Budget Provision of Rs. 3200 cr. has been proposed in the financial year 2022-2023.

The salient features of the Coastal Road Project are :

1. Length	10.58	km
2. Road on reclamation	4.35	km
3. Twin Tunnel (3 Lanes, 11m dia.)	2.7	km each
4. Bridges (4+4Lanes)	2.19	km
5. Interchanges (Princess Street Flyover Amarson, Haji Ali & Worli)	3	nos.
6. Interchange arm length (3 Lane)	15.66	km
7. Seawall Length	7.47	km
8. Reclamation Total Area (Excluding Seawall Protection)	96.51	Ha.
9. Seaside Promenade	8.5	km
10. Underground Carparks (Amarson, Haji Ali & Worli- 4 Location)	About 1,800	No. of Parking
11. Reclamation area (Gardens, Landscape, Parks etc.)	About 70	Hectare
12. Bus Terminals, Worli	1	Nos.
13. B.R.T.S. Bus Bays	8	Nos.
14. Police Chowky	2	Nos.
15. Pedestrian Underpass	16	no
16. Dedicated lanes for Ambulance & BRTS		
17. Sophisticated Saccardo Nozzle Ventilation System		
18. To Minimize flood risk storm water drain outfalls with automated anti flood gates have been proposed.
