21. DO'S AND DON'TS

DO's	Don'ts
<p>Switch off all electrical and gas appliances, and turn services off at the mains.</p>	<p>Don't walk through flowing water - currents can be deceptive, and shallow, fast moving water can knock you off your feet.</p>
<p>Take your emergency kit and try to let your friends and family where you are going.</p>	<p>Don't swim through fast flowing water - you may get swept away or struck by an object in the water.</p>
<p>Avoid contact with flood water - it may be contaminated with sewage, oil, chemicals or other substances.</p>	<p>Don't drive through a flooded area - You may not be able to see abrupt drop-offs and only half a metre of flood water can carry a car away. Driving through flood water can also cause additional damage to nearby property.</p>
<p>If you have to walk in standing water, use a pole or stick to ensure that you do not step into deep water, open manholes or ditches.</p>	<p>Don't return to your property until the "All Clear" has been given.</p>
<p>Stay away from power lines - electrical current can travel through water. Report power lines that are down to the power company.</p>	<p>Don't reconnect your power supply until a qualified engineer has checked it. Be alert for gas leaks - do not smoke or use candles, lanterns, or open flames.</p>
<p>Look before you step - after a flood, the ground and floors are covered with debris, which may include broken bottles, sharp</p>	<p>Don't eat any food that has come into contact with flood water</p>

DO's	Don'ts
<p>objects, nails etc. Floors and stairs covered with mud and debris can be slippery.</p> <p>If water is causing ceiling to sag, shut off electricity. Use ice pick to punch drain holes after placing pans below.</p> <p>If the ceiling above is bulging with water, do place a bucket underneath the spot and poke a small hole into the ceiling to relieve the pressure and let the water through proceed with care, however.</p> <p>Do use buckets, clean towels and mops to remove as much of the water from the afflicted rooms as possible. Use white towels on carpets and furniture to prevent bleeding</p> <p>Do place sheets of aluminum foil between furniture legs and wet carpet.</p> <p>If the weather is nice, open all windows to allow air in and remove as many belongings as possible to dry outside in the sunshine.</p>	<p>Never turn on ceiling fixtures if ceiling is wet. Stay away from ceilings those are sagging.</p> <p>Never use TVs, VCRs, CRT terminals or other electrical equipment while standing on wet floors, especially concrete.</p> <p>Don't attempt to remove standing water using your vacuum cleaner,</p> <p>Don't leave colored clothing, magazines, or newspapers on wet hardwood floors or carpeting since discoloration may occur.</p> <p>Don't go into any rooms where you feel you may be in danger.</p>

DO's	Don'ts
<p>Stay away from downed power lines, and report them to the power company.</p> <p>Do document the damage for insurance purposes by taking notes or photographs.</p> <p>Listen to the radio or television for information.</p>	<p>Don't remove standing water in a basement too fast. If the pressure is relieved too quickly it may put undue stress on the walls.</p> <p>Don't scrub or brush mud and other deposits from materials. This may cause further damage.</p>
